# AGUSTÍN MARTINEZ

## SOFTWARE ENGINEER

I am a software developer with a degree from Universidad ORT Uruguay and five years of experience. Over the years, I've built a solid set of skills by working on diverse projects and collaborating with cross-functional teams. I enjoy taking on new challenges, finding creative solutions, and seeing ideas come to life. I'm passionate about learning and growing in the fast-paced world of software development, always looking for opportunities to improve and make a meaningful impact.

## SKILLS

- Problem solving skills
- Communication and collaboration
- Object Oriented Programming (Java)
- Language frameworks (Springboot)
- Software architecture & Design patterns
- Web development (HTML, CSS, Javascript, React, Tailwind)
- Relational databases (MSSQL, MySQL, MariaDB)
- Version control (Git & Github)
- DevOps (CI/CD, Docker, AWS, Terraform)

## EXPERIENCE

### SOFTWARE ENGINEER

Geocom 2022-Present

Java developer focused on building a RESTful messaging service for company modules using Spring Boot, Kafka, and ActiveMQ. Worked closely with cross-functional teams to ensure smooth integration. Additionally, developed features for an inventory management product using Genexus, collaborating with other teams to meet client needs.

### GENEXUS DEVELOPER & SUPPORT

GXVision 2020-2022

Development of new requirements for our CRM and migrated an old smart devices app improving overall functionality and user experience.
Provide on-site & remote support to customers.
